

## NO WORD OF PRAISE

Cleveland Is Condemned by  
Pretty Nearly Everybody

## ON HIS HAWAIIAN POLICY

H. U. Castle, Former Editor of The  
Honolulu Advertiser, Criticizes  
Grover Severely.

AN ARIZONA, Mich., Nov. 14.—H. U. Castle, formerly editor of the Advertiser of Honolulu, who is in this city visiting friends, says the American minister or American forces did not participate in the deposition of the queen, but were passive spectators of the conflict. In regard to the reinstatement of the queen, Mr. Castle said: "It can't be done without the grossest injustice to hundreds of persons who have relied upon the good faith of the United States. The queen's government at best would be simply a paper government unless supported by American bayonets. Putting it that way, it is simply using the full force of the United States government in order to destroy the party of progress and ability."

## CLEVELAND NOT INDORSED

Ex-Governor Bedloe Discusses the Hawaiian Situation.

PHILADELPHIA, Nov. 14.—Dr. Edward Bedloe, ex-governor of New York, returned to his home in this city from Chicago today. Speaking of his recent visit to Hawaii, and of the political situation there, he said: "I have not indorsed, and I do not indorse President Cleveland's proposition to establish a monarchy in Hawaii, and I have no criticism to make of ex-President Cleveland's action in the premises. As a matter of fact, and of record, the revolution of last January in Honolulu was completed, and the provisional government was in power for forty-eight hours before ex-Minister Stevens requested the commander of the Boston to land the marines to protect American lives and interests. No possible advantage could accrue from annexation, on the contrary the acquisition of those islands would make American citizens of a lot of mixed people, composed of refugees, Europeans, objectionable Chinese and Japanese, native Hawaiians, and even undesirable people, who speak the English tongue, who are not qualified in any way to appreciate the blessings of this republic."

## WILL WAIT FOR CONGRESS.

Hawaiian Correspondence Will Not  
Be Given Out at Present.

WASHINGTON, Nov. 14.—It appears that the department of state has heard from Minister Willis by telegraph from San Francisco, for it is learned that the dispatches received at the department yesterday confirm the press reports of Minister Willis' arrival at Honolulu and other reports up to the time of the departure of U. S. China. The Hawaiian minister, Mr. Thurston, called at the department this morning and was escorted privately to conference with Secretary Gresham until the hour set for the meeting of the cabinet. The secretary still declines to make any statement touching Hawaiian affairs, and it is believed that if he had any intention of making public at this time Mr. Blount's report or Minister Willis' instructions that idea has been abandoned, and the next official statement will probably appear in the morning in the form of a report of the entire correspondence relating to Hawaii, which has passed since President Harrison sent the annexation treaty to the senate.

## IS THE LAW SOUND?

Suit Brought to Test the Indiana  
Restricting Law.

INDIANAPOLIS, Nov. 14.—The attorneys retained by the republican state committee to test the constitutionality of the curfew-law enacted by the last legislature, will file the suit tomorrow or today in the Marion county superior court. The complaint is a voluminous document, by H. A. W. Richards, as a citizen of the state, seeks to enjoin the county clerk, auditor and sheriff of each of the thirty-two counties in the state from enforcing the curfew-law, and performing their duties in connection with it in accordance with the act in question on the ground that it is void, inasmuch as it does not carry out the requirement of the state constitution demanding as nearly as possible equal representation based upon the total population. Data are given showing that under it certain counties are given excessive representation while others are robbed of their power in government.

## McKENLEY'S CYCLOPE.

The Governor Will Have a Majority  
of 87,187.

COLUMBUS, Ohio, Nov. 14.—With all but two positive official the majority for Governor McKinley today stands at 87,187 and the indications are that it will be full before election when the official vote is announced by the secretary of state. Only in Pike county did the democrats make a net gain, and this amounted to but 122 votes. Attorney General Richards decided that the constitutional amendments in order to carry should have received a majority of all the votes cast for members of the general assembly. As they did not receive this required number they are defeated.

## Kentucky Legislature Democratic.

LOUISVILLE, Ky., Nov. 14.—Nearly all the returns from the recent election are in and the political make-up of both houses of the next assembly can now be given. In the house there will be seventy-three democrats, three independent democrats, two republicans and twenty-five republicans. In the senate there will be twenty-seven democrats and eleven republicans.

## NO FREIGHT FOR HAWAII.

Merchants Fear to Ship Goods Under  
Present Conditions.

SAN FRANCISCO, Nov. 14.—No freight is being offered for transmission to Honolulu on the steamer Monowai, which sails next Thursday. Charles F. Kiefer, Hawaiian consul, said that up to now there has been no offer of freight on any of the steamers. A few freight bills have been sent to Honolulu without that formality it is a precedent that the cargo of the Monowai for Hawaiian ports will not be heavy on this trip. "There is still considerable cargo," said Mr. Kiefer, "and the offering of freight bills is a sign of the offering of cargo, and it is a sign that the merchants here feel sure to risk their goods by sending them to Honolulu."

## GOODS BY SENDING THEM TO COUNTRIES

where there is a chance for a revolution. Revolutions are not good for business and merchandise might get lost with nobody to be held responsible for it. Besides, I hear the Monowai is loading the Australia's homeward bound cargo of fair exhibits and will have very little space for other freight. We cannot tell what shape the matter will take until the Monowai is about ready to sail."

## THATCHER WAS CALLED DOWN.

World's Fair Officials Want a List of  
Foreign Awards.

CHICAGO, Nov. 14.—In the closing days of the final session of the world's Columbian commission, President Palmer appointed a committee to consider complaints of foreign commissioners and others who had grievances against the list of awards. In many instances Mr. Thatcher's clerks had given medals to streets and boulevards instead of to the artists or manufacturers on these streets.

Mr. Thatcher was ordered to prepare a list of all foreigners who got medals and to send the list to the commissioners from the respective countries to be corrected. He was also ordered to prepare a list of the cards issued to the judges who examined the displays, that precaution being taken to protect exhibitors, in the event of any corruption or suggestion on any side.

The protest of J. S. Larke, commissioner from Canada, against certain irregularities in the agricultural implement section was adjusted by ordering Mr. Thatcher to at once organize a court of appeals.

## NO AGREEMENT SIGNED.

Misunderstanding With Manufacturers  
Over About Puddles' Scale.

PITTSBURGH, Nov. 14.—A telegram from Youngstown, Ohio, says developments regarding amalgamated scale show a decided misunderstanding between the manufacturers and amalgamated men regarding the scale for puddling. It was given out by both sides that the agreement reached was \$4.75. A manufacturer, who took part in all the meetings that were held here, said today: "We did not agree to pay \$4.75 for puddling. At every meeting we insisted that the scale should be \$4.50 for puddling and did not for a moment recede from that position. The amalgamated men suggested as a compromise on \$4.75 but we declined to talk of that matter. We figured that by using scrap we might get out with a small margin at \$4.50, but could not pay more than that price."

## SCALED THE APPROPRIATION.

Methodists Indulge in a Hot Debate  
Over Indian Missions.

MINNEAPOLIS, Nov. 14.—A red hot debate over the sum to be appropriated for mission work in India during the coming year enlivened this afternoon's session of the general missionary committee of the Methodist church. It was finally decided to scale the \$150,000 appropriation recommended by the committee one-tenth, and to allow the India to spend a further sum of \$15,000. It provided it raised the amount itself. The other appropriations for the foreign work made earlier in the day were as follows: South America, \$61,561; Central America, \$25,400; China, \$13,141; North China, \$12,250; West China, \$5,067; total for China, \$111,711; North Germany, \$13,800; Switzerland, \$7,900; Norway, \$11,000; Sweden, \$15,000; Denmark, \$11,000; Finland and St. Petersburg, \$18,751; Bulgaria, \$18,250; Italy, \$12,500; Mexico, \$63,378.

## CUBA IN A REVOLT

Spontaneous Movement of Scattered  
Bands of Revolutionists.

## TO CAST OFF THE SPANISH YOKE

The Island Is in a Ferment and  
Men Are Being Armed and  
Placed Looted.

NEW YORK, Nov. 14.—General Jose Marti, editor of Patria and leader of the revolutionary party in Cuba, today received the following cable dispatches in reference to the reported uprising in that island:

Key West, Nov. 13.—Persecution goes on against the Quacera party and others. Condition critical.

OMAHA, Nov. 13.—Large meeting of sympathizers here last night. Great enthusiasm.

The steamship Yumura, from Havana, on November 9, arrived today. She carried in the mails a large number of Havana papers. They gave lengthy accounts of what appears to be a spontaneous uprising of small bands of revolutionists all over the island.

According to El Pais of Havana, dated November 7, the uprising started on November 5. Twenty men rose in La Jua entered the store of a dealer in firearms and demanded the surrender of his place. He refused and was shot. The place was looted. The men being thus armed went to forage. Here they took thirty horses and were reinforced by more revolutionists. Then they went to San Loider, where telegraphic communication was cut. The last heard of them was that they were at Agudon, the plantation of the Marquis de Aguila.

A similar uprising took place in Ranchuel of twenty-five armed men. In another small town twenty men arose in arms. An engagement followed with the government troops, in which five men were taken prisoners and the rebels dispersed. General Marti says offers of aid have come to the rebels from many sources. The persecution referred to is the imprisonment of men known to be revolutionists at heart on trivial or trumped up charges. General Marti declares that the best youth of the province of Cienfuegos started the revolt, and that all the neighboring towns immediately joined it. He says that many bloody encounters have taken place.

## TWITTED OF DISLOYALTY.

Ex-Premier Mercier Denied That He  
Talked Against Canada.

QUEBEC, Nov. 14.—Ex-Premier Mercier was yesterday twitted in parliament with disloyalty on his first appearance since his mission to the United States. He had been charged with having talked against Canada, on the contrary, he had spoken of her as rich in resources of all kinds, but badly governed. He believed that Canadian farmers prospered as they did in spite of England, and he wished to be well understood on this point, in spite of her geographic position and the army in Quebec and Ottawa government. What might not be the measure of their prosperity if they were independent of her.

## SPANISH AFFAIRS CRITICAL.

Public Confidence Is at a Very Low  
Ebb.

LONDON, Nov. 14.—A letter from the Spanish agent of a great commercial house of this city says the condition of affairs in Spain is critical. Public confidence is at the lowest ebb. The government and other officials are in a state of panic and the army is only disaffected owing to the fact that its pay is in arrears. The Melilla disturbances have not diverted the attention of the people from the Barcelona dynamite bomb outrage, which has further inflamed the public against the government, and this state of affairs may lead to the most serious consequences. Mr. Kamenet, the British consul at Santiago, who is now in London, has received a telegram assuring him of the pacific condition of Cuba and saying that the report of a revolt on that island comes from the Cuban party in Florida.

## WAR OFFICE IMPLICATED.

Startling Developments Regarding  
Arrest of Two Spies.

BERLIN, Nov. 14.—Herr Hanauer, imperial minister of justice, has made a report to the emperor on the case of the two Frenchmen arrested some time since at Kiel on the suspicion of being spies, and who afterward confessed that they belonged to the French general staff. At the time of their arrest they pretended that they were yachtsmen, an English yacht chartered by them having brought them to Kiel. When they and the yacht were searched the police found a collection of photographs and plans of the defenses of several of the German ports. Minister Hanauer in his report says that surprising revelations have been made in the case, linking the French war office with the work of the prisoners.

## ROBBED BY MASKED MEN.

They Held Up a Storekeeper and  
Secured \$700.

ECRATIA, I. T., Nov. 14.—The store of Brown at Wemox was entered about 3 o'clock Saturday evening by four masked men, who ordered Treasurer Brown to open the safe and hand over what money there was in it. The order was quickly obeyed and \$700 handed over to them. They then robbed Mr. Brown of a gold watch and chain. After doing part of the game, one stood guard while the balance of them went to the bank and got four saddle horses. They then forced the clerk and Mr. Brown to walk seven miles with their hands up.

A body of police constables then cleared the hall.

From this exchange of views Mr. Gladstone learned that both sides were ready to accept any proposition which they considered reasonable, and which would lead to a prompt settlement of the dispute.

## PUPILS IN A PANIC

They Are Rescued From a Burning  
School House.

## TEACHER AND A BOY PERISH

The Flames Cut Off All Exit and  
the Children Were Thrown  
From the Windows.

NEWDA, N. Y., Nov. 14.—The school house at Coopersville took fire and the teacher, with one of her scholars, was burned to death. The school house was situated two miles north of the village and Miss Porter, a young lady, was the teacher. She lived here with her aunt. The only door to the school house opens into a large woodshed on the south side, which was filled with wood. By some means unknown to anyone this took fire before the morning recess and was a mass of flames when Miss Porter opened the door. The flames came into the school room as from a furnace under the high wall and it is supposed Miss Porter was suffocated instantly by her clothing taking fire, as she stepped back a few feet and fell where her body was found. Her head was nearly all burned away and also one leg. John Willard, aged 4 years, son of Conrad Johnson, was also burned to death. He ran to the teacher for protection, when he met his fate.

## Two Heroic Negro Boys.

There were about twenty scholars in the school when the fire burst in at the door, and as Miss Porter opened the door all was at once confusion. There was two negroes in the school-room, Melvin and Charles Chambers, aged 16 and 14, sons of James Chambers, and the other boys in the school. Their action undoubtedly saved many other lives. The only door to the school house was a mass of flames, and no one could escape that way. The boys dashed out the windows and literally threw the children out to save their lives. Melvin was severely burned about his face, but remained in the school house until every child was rescued. Mr. Chambers and Conrad Johnson saw the fire first from where they were drawing grain and ran to the scene. The whole building was a mass of flames and nothing could be done to save it. People flocked to the place as fast as teams could carry them. Before they could reach there Chambers and Johnson were met on the road with the charred remains of Miss Porter and the little body coming to town. All that was left of the school house was a pile of ruins. The boys were quickly taken to the hospital and are now recovering. It was one of the most shocking occurrences that has taken place here in years.

## LYNCHED AND BURNED.

Negro Murderer Was Executed by a  
Colored Mob.

LETTICE ROCK, Nov. 14.—Word reached here this morning of the horrible execution of a negro named D. Nelson, at Varner last night, by a mob composed entirely of negroes. Last week Nelson murdered Ben Betts, a negro, and since then he has been confined in the small jail at Varner, which is a little station on the Iron Mountain railroad and in a sparsely settled country. The friends of the murdered man gathered at the jail last night and breaking down the doors dragged the trembling wretch out into the rain and darkness. They tied a rope about his neck and dragged him to a tree, where he was quickly swung up. In the meantime the poor wretch yelled for mercy and proclaimed his innocence. The evidence against him was too strong, however, and the mob turned a deaf ear to his appeal. As soon as his body was fastened to the gallows, a volley of bullets into the slowly revolving figure. Then they gathered a lot of wood and set fire to it. The flames quickly reached the suspended figure and his clothing ignited and his flesh began to burn. The mob then withdrew after warning, every one not to extinguish the flames. The rain, which was pouring down, quenched the fire and saved the body from incineration. Early this morning the body of Nelson was found lying in the jail yard with the clothing partly burned off. The authorities are trying to learn the identity of the mob, but with poor prospect of success.

Mrs. Holliday, the Murderess, Grabbed  
Her by the Throat.

MONTICELLO, N. Y., Nov. 14.—Mrs. Paul Holliday, the triple murderess, in her effort to counterfeit insanity, has become the terror of her attendants. This morning she manifested much violence as Mrs. Beecher, wife of the sheriff, was giving her breakfast and trying to make her comfortable. She sprang at her with the ferocity of a tigress and clutched her by the throat and soon would have strangled her had not the sheriff sprang to his wife's assistance. The sheriff with little difficulty loosened her grasp from his wife's neck. In the melee a large needle, something like a darning needle only larger, was discovered secreted in the folds of her dress. When she got up it was a mystery. It is thought she was waiting for an opportunity to use it on some of her attendants.

## JOHNSON ELECTROCUTED.

The Convict Murderer Met His Fate  
in Auburn Prison.

ALBANY, N. Y., Nov. 14.—John Johnson, the colored convict murderer, was executed in the electric chair in the prison here today at 12:40. He walked to his death calmly and his nerve did not desert him. The execution was a success. Johnson was known as the "Blue Stained from Clyde," and was a criminal for years and been sent up for various crimes many times. April 17 last, without excuse or warning and simply while in a fit of temper, Johnson ran through the broadness of the prison and began slashing right and left among the convicts with a broadsword. He stabbed Charles Britton to the heart and slashed Daniel Britton in the abdomen, death resulting in two hours. Several others were badly cut before the convict was disarmed.
